

24 January 2025

Dear Resident,

Works update for the week commencing 27 January 2025

Further to our previous correspondence, we would provide you with an update on the upcoming roadworks on the Balmeanach Road.

Further equipment and workforce will arrive early next week (likely Monday 27th January) with the road works starting then or shortly after.

As previously mentioned, the road works will be undertaken under stop/go operations. The contractor, RJ McLeod, anticipate that any delays encountered by passing traffic would be minor (2-5mins).

RJ McLeod's working hours are 8am-5pm.

Traffic will initially increase on the Balmeanach Road, with lorry deliveries of material for the passing places, plant and cabin deliveries. This will later be smaller dumpers taking material to a temporary laydown area.

At the same time as the road works, there will also be a bridge deck replacement undertaken (off the public road, along the access track to the substation). In the week commencing 10th February further welfare units will be delivered to the substation and some fencing will be installed at the substation.

The on-site contact is Ms Songul Keskin (GE/Vernova) and her number is 07887 605 852. Songul will be happy to assist with any urgent matters arising from these works.

We look forward to working closely with you and thank you for your patience during the upcoming works.

Please do get in touch with any questions, concerns, or feedback. Also, please do let us know if you have any worries about the works potentially interfering with your own access requirements/business operations/projects so that we can work together to resolve any challenges.

Best wishes,

Maren Ebeling
